London and River Plate Bank
(LIMITED)
London, Buenos Ayres Montevideo, Rosario and Cordoba.

Authorised Capital..... £2,000,000 Ster
Subscribed Capital..... 1,500,000 „
Reserve Fund..... 150,000 „

Offices in Buenos Ayres—
CORNER OF CALLE PIEDAD AND RECONQUISTA

Current Accounts opened with Commercial Firms and private individuals.

Customers have the advantage of having approved Bills discounted—of obtaining Loans upon Negociable Securities, of Deposing Bills, Coupons, &c., for Collection—subject to a Conventional Commission.

The Bank receives deposits either at sight, for fixed periods, or at thirty days' notice of withdrawal, interest on which is regulated by the market value of money, the Bank notifying any change in Rates, by Advertisement in the principal daily papers.

Letters of Credit issued to parties travelling abroad.

Letters of Credit issued to parties for the purpose of purchasing Goods in Europe, the United States, &c, the terms of which can be ascertained on application to the Bank.

Parties wishing to bring out funds to the River Plate, can do so through the medium of the Bank's chief office.

N. 52 MOORGATE-STREET, LONDON E.C.

TIME-TABLE
OF THE
Buenos Aires and Campana Railway Co.'s Steamers
TRIDENTE & DIANA

On and from the 1st of APRIL next the steamers TRIDENTE and DIANA, expressly built for this Company in order to facilitate the Traffic between Buenos Aires, Rosario y Santa Fe will run as follows until further notice—

MONDAYS, steamer DIANA to Rosario ad intermediate ports
TUESDAYS, steamer TRIDENTE to Rosario and intermediate ports
WEDNESDAYS, steamer DIANA to Rosario, Santa Fe and intermediate ports
THURSDAYS, steamer TRIDENTE to Rosario and intermediate ports
SATURDAYS, steamer TRIDENTE to Rosario and intermediate ports.

The Train will leave the Central Station at 3.15 p.m.

Passengers by these steamers will find excellent accommodation and good attendance, and merchants every security for their cargo.

The Company has made arrangements with the Central Argentine, Tucuman and Andine Railways for the through booking of passengers, goods and parcels between the principal stations on these Railways and B. Aires.

The Agency undertakes to receive cargo for the steamers at the warehouse of the sender and to deliver same to the Consignee, also to take out the necessary Custom House permits.

For further information apply at the
AGENCY
Calle Piedad 35

N.B.—Cargo for these steamers will be received at the Campana Railway Company's Goods Shed at Retiro from 6 a.m. to 6 p.m. on week days. 230

Keating's Powder.
KEATING'S POWDER.
KEATING'S POWDER.
KEATING'S POWDER.
KEATING'S POWDER.

KILLS BUGS, FLEAS, MOTHS, BEETLES,
THIS POWDER is quite HARMLESS to ANIMAL LIFE, but is unrivalled in destroying FLEAS, BUGS, COCKROACHES, BEETLES, MOTHS IN FURS, and every other species of insect. Sportsmen will find this invaluable for destroying fleas in their dogs, as also lasting for their pet dogs.
THIS ARTICLE has found so GREAT a SALE that it has tempted others to vend a so-called worthless imitation. The PUBLIC are CAUTIONED that the sign of the genuine powder bear the autograph of THOMAS KEATING. Sold in Tins only.

KEATING'S WORM TABLETS.
KEATING'S WORM TABLETS.

PREVENTS AND CURES SCAB
This Dip is most carefully prepared by the latest improved methods and can be used with
COLD WATER
Supplied to the Prince of Wales's Farm at
SANDRINGHAM
TESTIMONIALS.
From Mr. JOHN J. MAHON, Capilla del Señor, June 29, 1881.—The dip which you sent me I used according to directions, and I can assure you that it gave the desired result. During four years of practical experience of curing scab in sheep, I have seen many specifics used, and I consider Gilliard's the only one that gives complete satisfaction. It improves the quality and promotes the growth of the wool. For efficiency, economy and facility of application, I prefer it to any dip I have used.
From Mr. JAMES M. THOMAS, Estancia Santa Ines, Monte, June 29, 1881.—Having given a good trial to Gilliard's Dip, I have much pleasure in bearing my testimony to its valuable quality as a Sheep Dip. It destroys all insect life with which sheep are infected, mixes readily in cold water, does not injure the hands, and softens all hard parts. I shall strongly recommend it whenever an opportunity offers. As regards the cheapness, it should command a good sale.
From Mr. Wm. Petty, Estancia Caro, Colonia, Sept. 20, 1881—
"I feel great pleasure in informing you that the sheep dip supplied by you to me under the name of Gillard's Sheep Dip has had surprising results on my English long-woolled rams; it has kept them entirely free from scab after only twice using it, although those rams have been constantly running in a flock of scabby sheep. I intend for the first time to give it a trial with the whole of my English breed of sheep as soon as I have them shorn, as I feel satisfied I shall with that did keep scab out of the flock.'
From Messrs Patrick Mahon, junr., Chisaco Morales, and James Murray, Capilla del Señor, Sept. 18, 1881—
"It gives us great pleasure to inform you that, after giving a good trial to Gillard's non-poisonous sheep dip, we can pronounce it to be the best specific we have used as yet, and we are fully determined for the future to use no other remedy."

HOP BITTERS
ARE
THE PUREST AND BEST
MEDICINE EVER MADE.
THEY ARE COMPOUNDED FROM
Hops, Buchu, Mandrake and Dandelion.
"The Oldest, Best, most Renowned, and Valuable Medicines in the World, and in addition contain all the best and most effective curative properties of all other bitters, being the greatest Liver Regulator, BLOOD PURIFIER and life and health restoring agent on earth."
They Give New Life and Vigor to the Aged and Infirm.
"To Clergymen, Lawyers, Literary Men, Ladies, and all those whose sedentary employments cause irregularities of the Blood, Stomach, Bowels, or Kidneys, or who require an Appetizer, Tonic, and mild Stimulant, these Bitters are invaluable, being highly curative, tonic, and stimulating, without being intoxicating."
"No matter what your feelings or symptoms are, or what the disease or ailment is, use Hop Bitters. Don't wait until you are sick, but if you only feel bad or miserable, use the Bitters at once. It may save your life. Hundreds have been saved by so doing at a trifling cost."
Ask your Druggist or Physician.
"Do not suffer yourself or let your friends suffer, but use and urge them to use Hop Bitters."
"Remember, Hop Bitters is no vile, drugged drunken nostrum, but the purest and best Medicine ever made, and no person or family should be without it.

HERRINGS.

People in general have a very exalted idea of educational magnates; green silk handkerchiefs, snuff spectacles and chimney-pot hats are their main characteristics; a certain heavy verbosity and originality of attire are inseparable from the distinguished individuality of those who hold the educational leading-strings of the country. Their hobbies are so many virtues, so many traits of an imposing genius; thus some may roam about our streets with dogs under their arms, or 'a la Littre' flit through the atmosphere with heavy in folios, greasy coats and creased shirt-fronts; genius and talent, strange to say, may be detected in these particularities as one may discover a diamond in a heap of 'basura.' Well, in reference to educational magnates the world at large knows that the Argentine Republic has a select educational Board, composed of men, some noted for the originality of their mind or proceedings others for their poetic, or literate vein and manifold productions; the Board room was surrounded in the public mind by an aurora borealis of respect, and the threshold of same, until very lately, had never been invaded by the unsparing footprints of the satirist. But the longest lane has its turn, and the Board of Education of the Argentine Republic has now to stand the quick-fire of sarcasm, poured forth by the very President of the same. The history of the domestic dissensions of the magnates calls for the pen of a Gybbon or of a Dean Swift; levity and gravity may claim their rights in the annals of same, and we do not know which most to admire or to deplore, the malice of the President or the sheepish, peevish and highly scientific attitude of the Board, that, obeying the dictates of a sceptical school of philosophy, no more believes in the existence of matter than it is aware of the cutting stripes of the remarks of its honorable President, General Sarmiento, Superintendent of Education, and ex-President of the Republic.

Wit is not the patrimony of the Board and the Superintendent has the field to himself, and verily it is difficult to parry his scathing sarcasm: the dirty linen of the Board is being washed in public. The high-toned members having signified their dissatisfaction in the extreme as to the obsolete want of education on the part of the Superintendent of Education, in reference to his public behaviour to them and his little consideration of their dignity, a meeting of the Board was summoned, and all the magnates requested, ordered, begged and entreated to attend. All were present; only the guilty President did not appear, owing to multitudinous domestic affairs that led to the following apologetic note on his part to the members of the Board, and directly to the Secretary of same, a very talented gentleman who understood the joke and the gravity of its consequences better than his highly instructed colleagues:—

Bs. Aires, December 16, 1881.

Monsieur Le Secretaire,
of the National Board of Education.

Owing to the serious occupations of the moment, busy placing in my aquarium fifty fresh herrings (European fish), that would otherwise die if not immediately plunged in water, be so kind as to preside over the meeting, called for the sole object of naming a Vice-President, as has been sanctioned, and inform the members of this authorization I give you to take my place.

Domingo Faustino Sarmiento.

Sarmiento, like Lucullus, cares more for his fish than for the public educational welfare. The members of the Educational Board could not swallow the fresh herrings, bone and all, and their equanimity and dignity gave way under the high pressure, nearly bursting the boiler of the educational locomotive in a furious note to the Minister of Education, complaining, that they had been treated like school boys by the Superintendent. There is no joking with Sarmiento, and his note has plunged them into the deepest ridicule, so much so that the only way out of the mess is to resign position, salary, and all. The herring-bones stuck in their throats and the iron was driven far, and the Superintendent may rub his hands over the mischief he has created and the opprobrium he has heaped on the superabundance of brains that guided the educational future of the Republic.

LONDON LETTER.

(*From our Own Correspondent*)

FOREIGN TRADE OF THE UNITED STATES.

November 7.

The *Times* of this morning devotes three columns to an analysis of the foreign trade of the U. States; and to exposing the fallacy of the 'fair traders' in assuming that the growth of the foreign trade of a country is an index of its prosperity apart from the nature of the trade; or that independently of such considerations, it is any test of a particular fiscal or commercial policy.

The writer takes a period of 40 years—1840 to 1880—dividing it into decades.

Since 1840 the increase of the imports of the United States amounts to about £114,000,000; and in the exports to about £143,000,000. The percentage increase in the one case being about 600 p. cent, and in the other about 570 p. cent.

In these calculations the exports and imports of specie are not taken into account; but in regard to the U. States, a producer of the precious metals, it is particularly necessary to do so.

Including the specie, it is found that the imports rose from £21,408,000 in 1840, to £152,200,000 in 1880; and the exports rose from £26,417,000 in 1840 to £170,576,000, whereas exclusive of specie the imports in 1840 were £19,082,000 and rose to £133,591,000 and the exports from 24,734,000 to £167,123,000 only. So that the increase of imports, specie inclusive, is 131 millions, instead of 114 millions, since 1840; the increase of exports remaining much the same. In fact during the last 40 years the percentage of increase in the imports of the U. States is greater than that of the exports: the percentage being 610 p. cent in imports against 560 per cent in exports.

During the last decade 1870-80 the increase in the exports has been about 90 per cent., and in the imports 63 per cent. The large increase in exports of merchandise was to some extent a displacement merely; other products being sent abroad instead of the gold and silver produced in the States. The £11,389,000 of gold and silver exported in 1860 and the £3,777,000 exported in 1870 were in all respects domestic products, and the fall in the exports between 1870 and 1880 must be set off against the increase in the exports of merchandise.

Marvellous as the increase in the foreign trade of the U. States may be during the last 40 years, the increase in the foreign trade of the United Kingdom during the same period is still more marvellous.

The 'increase alone' in the British exports between 1840 and 1880 is £172,000,000, that is more than the 'total exports' of the United States, merchandise, bullion, specie and all together in 1880.

That is not the only difference. We have to take not the absolute increase but the relative in regard to the population of the two countries. In that view it is found that the increase of the exports of Great Britain is 30 per cent. greater than that of the United States in the forty years past. In 1840, the exports of the United States 'per head' were £1. 11s. 1d. and of the United Kingdom £1. 18s 9d. In 1880 the exports of the U. States £3 8s. 1d per head, and of the U. Kingdom £6 9s. 5d.; and if you examine the figures given in the *Times* you will see that the distance between the United Kingdom and the United States was greater at the close than at the beginning of the period.

TUDOR, equal in quality and flavour to Teas sold at $30 m|c and $40 m|c lb. Parties who have once tried it take no other. SOLD EVERYWHERE

In regard to imports, the increase in the U. Kingdom since 1855—the official values not being reliable previous to that date—amounts to 268 millions or more than double the increase of the imports of the United States between 1840 and 1880. During the last decade the increase was 108 millions as against 60 millions in the U. States. In 1880 the imports per head were £11 18s 7d in Great Britain, and £3 0s 9d in the United States.

It must be remembered in reading these figures, that comparing exports and imports in the case of the United Kingdom and the United States they mean slightly different things. In this country we export a great deal that is not British produce and we also re-export a great deal of what we import, probably directly and indirectly, 100 millions. But making all allowances, there can be no doubt as to the greater magnitude as well as the more rapid progress of our foreign trade compared with that of the United States. Moreover we have to take into consideration another fact of special importance.

A large portion of what this country exports is 'unrecorded,' but exists in the shape of labour and expenditure in the building and hiring of ships, in short, in the maritime carrying trade.

Between 1870 and 1880, there has been an increase of entries of vessels in the foreign trade in the U. States ports amounting to 9 millions of tons, of which only 676 thousand were American. Consequently the U. States have had to pay other countries for carrying their goods, and this is one reason why their visible or recorded exports have increased. Those exports are grain, cotton, metals, provisions and other national products of a rich and populous land, and are unaffected by any particular fiscal and commercial policy. Her unrecorded exports, her shipping industry, is precisely what is destroyed by her protectionist regime.

Were the shipping trade of this country to fall into other hands, our exports would immediately increase to pay for food and raw material we now pay for parily in freights.

The aggregate trade of a vast and fertile country like the U. States must of necessity increase much more rapidly than ours; but the primary tests of a system of trade are in the foreign trade and in the relative accumulated wealth calculated per head of the population. Such tests I must add are not final in respect to the merits of free trade and protection, because there are other questions to be taken into account, such as the political system and economy of the Government as well as the agricultural and social system ruling in a particular country. The U. States has been burdened only with her own statesmanlike and successful efforts to redeem her currency and national debt. She is not consuming her substance by military expenditure, or is she hampered by feudal land laws.

PARIS LETTER

(From our own Correspondent)

Nov. 9th.

The country is very happy to leave M. Gambetta all the time he requires for the incubation of his grand cabinet. Only the radicals, who number some thirty Deputies, and each of whom claims to be in himself a party, cry out that we are not in a Republic, but a nameless thing, governed by the laws of empire and royalty. Metternich's observation would thus appear to be true, 'the Government of France is an intermittent monarchy.' The name is unimportant, if the laws, no matter under what regime they have been made, be good. The drawback of the present Chamber is this; there will be no serious opposition party to keep the Government on the 'qui vive': the monarchists are so few, and their programme is only that of 'folded arms'; the radicals after all their threatenings during vacation, have collapsed. The retiring Ministers will neither be impeached nor guillotined, and the chief of the new Cabinet repays all the labored abuse of the Philistines with the most supreme disdain, and as becomes a Magnus.

The Prince and Princess of Wales have avowed on leaving, that they never passed a more charming week in Paris than their last, just terminated. Their delight was to take a morning walk alone like common mortals; home to breakfast, followed by fireside chats; later, to the shops like country cousins, and above all, dine in a restaurant where they were perfectly unknown and free from ceremony and royal dishes, and where the waiter or proprietor addressed them as plain Monsieur and Madame. The Princess is a wide-awake lady: in order to avoid all invitations to dine out, she forgot all her dresses in London. One of their little Timmins' repasts consisted of beef-steak and fried potatoes, followed by a truffled fowl, plus the ordinary kickshaws of a restaurant.

There is a very silent but notable revolution going on in French society: the old nobility, or whatever remains of them, are gradually sinking into the back ground while the rich 'industriels' the millionaires, are taking their place. Some of the most extensive and luxurious shooting parties are given by fabricants, who work still at their ordinary calling. Cynical and jealous persons allege, all that is simply advertising razors to sell:

The weather becoming Siberian, a few notes on Furs may please 'elegantes:' Muffs are very small, in otter satin, velvet and plush, ornamented, rather than trimmed, with moire, satin, and humming birds: there are plaits of velvet, rows of lace, and conqueror's knots; the interior is a veritable 'multum in parvo' for the card case, purse, handkerchief, scent bottle, fairy looking glass, and a tiny box of powder. Fur muffs in otter are very general, and the same material is in favor for toques and mantles; skunk serves to border mantles in plush or damask; blue fox is a royal fur that modest purses cannot approach; Castor, Astrakan and Chinchilla will be less worn this winter,

The theatrical season is extremely flat, and will probably remain so until after Christmas. The opera is in vogue, not on account of its music, but to witness the electric light, just as the grand staircase drew in its early days. The light is still a qualified success, and the more the fair sex test it the less they like it. Sunday promenade concerts are very successful: the bills of fare are ever well selected. A score of years ago Pasdeloup had the field all to himself—now he has to count with four Richmonds. The Trocadero concerts imply at this season a visit to Siberia, hence why they are 'warmly' supported by the Russians perhaps. An insurance office would not issue policies to persons attending such musical gatherings, save at a risk premium: galloping colds and consumptions are contracted there.

A journal announces that the 'Mount St. Gothard Tunnel in Egypt has been opened.' Geographical as usual.

In a café outside Paris a notice requests the customers not to walk on the billiard-table.

'Name some quadrupeds, my child.' 'A horse, a sheep and two hens.'

Definitions: Inconstancy, the fault of Atheus. Laws, barriers to thwart honest people. Opposition, the policy of the refused. Tail, an appendice useful to monkeys but detrimental to statesmen.

General Galliffet was asked by M. Grévy what punishment the insubordinate cornets at Samur deserved. 'In my time,' replied the General, 'they would have received 15 days in the cells, but as everything has since increased in value, they merit two months.'

EDITOR'S TABLE.

The R.M.S. Derwent had to postpone her sailing yesterday, owing to bad weather on 18th and 19th. She sails to-day.

The telegrams from the West Coast are assuming a strong likeness to History, in their tendency to repeat themselves. We read a week ago some of the telegrams published yesterday morning. Political things on the Pacific coast are now in such a miserable muddle, owing to the extraordinary course adopted by the United States Minister in Lima, that it is impossible to say what the wind-up will be. An Osborn is wanted badly in the Peruvian capital.

The American Bazaar opens to-night in the American Church School-room, in Calle Corrientes and is certain to be a great success, the number, quality and value of the articles contributed being a guarantee for such result. Our American cousins always manage these things well.

We feel great pleasure in announcing that all the guilds and societies of the city, foreign and Argentine, are cordially invited to assist at the unveiling of the statue of the late Dr. Adolfo Alsina, in Plaza Libertad on 29th inst. The Presidents of said Societies are requested to meet the Special Committee—Colonel Viejobueno, Colonel Donovan and Dr. Jose Fourouge—to-night, at 8 o'clock, at No. 24 Calle Bolivar, to exchange ideas as to the order of the procession.

We have been requested to give notice that the children and teachers of St. John's Anglican Church Sunday School will meet for the practice of Christmas Carols, in the School-room on this (Wednesday) evening at 7.30. The Festival will be held on Christmas morning, at 9.45. The parents and friends of the children are invited to attend.

The *Revista Naval y Militar* is really an excellent publication, and we hope that all the officers of both services are regular readers of and subscribers to it. We commend to them specially articles on Naval Gunnery and the Sanitary System of the German army, in the last number issued.

Dr. Iriondo, Governor of Santa Fe, is to be 'albumed' on his approaching retirement from that post. Formerly gold medals were the fashion to express approval of public functionaries—now albums rule the roast. What the next freak of 'la moda' in this way may be it is hard to say.

The Bolivians have got tired of doing nothing in the Ten Cents War, and have returned to their first love—Revolution. A tidy little scrimmage, headed by Dr. Corral, has taken place in Cochabamba, but it amounts to nothing and is purely 'to keep their hands in,' at the national pastime. Some people are beginning to think that the settlement of West Coast affairs, when it comes, will involve the disappearance of Bolivia from the map of South America,

The Tailors' Ball at the Florida Gardens on Saturday night was a grand success in every way, especially in that which gives the greatest eclat to all balls, viz., the number of pretty girls present. A colleague says that most of them were 'soberbiamente lindas,' and all were handsome. Even in this city of pretty women, this can rarely be said of any ball-room, and the Sociedad de los Sastres may justly feel proud of their lady folk.

The concert of the German Singing Academy at the Coliseum on Wednesday night was one of the greatest of the many musical successes achieved by this society since its formation. The large audience was repeatedly roused to decided enthusiasm by the masterly performance of the programme, Handel's 'Creation' being especially well rendered. So charmed were those fortunate enough to be present, that many wishes were expressed for a repetition of the treat.

Mr. Buttner, the Water Works engineer, rebuts in a report to the President of the Board, Dr. Wilde, Mr. Dawney's letter in reference to the Poisoning of the Pipe Water. To most people Mr. B.'s explanation of the matter appears rather weak, and Mr. D. has the best of the argument. 'Doctors differ and patients die.' Mr. Dawney has sent us another letter on the subject.

It now turns out that the disappearance of the High Life 'belle' with the family coachman last week was as much a case of robbery and kidnapping by the latter as any thing else.

The shop windows in Calle Florida already show the surest sign of the approach of Carnival—the 'pomito.' We hope the Municipality will test a few samples, so that people may have a better chance of escaping the blindness for life which may spring from the use of noxious materials in the manufacture of the article.

The Duchess of Genoa was nicely 'sold' lately by a bird-fancier, who sold her a parrot that could recite the Lord's Prayer in 6 different languages. The bird recited it in all for H.R.H. in the shop, but when she got him to the palace it could not even say 'Pretty Poll!' The upshot was that the bird man was both a linguist and a ventriloquist, and had thaught the bird to move its beak while he was doing the trick to which the Duchess fell a victim.

Some mummies from San Juan will be amongst the curiosities at the Continental Exhibition. Exhibits from the Interior are already beginning to arrive.

The row in the Consejo de Educacion is the spiciest thing in the papers for a long time. In the way of hard hitting, straight from the shoulder, the Superintendent has no match in the country. The quarrel is a very pretty one as it stands.

Mr. Natale Guillaume, Director of the circus troupe bearing his name, died yesterday after a long illness. The funeral takes place this evening at 5 o'clock, from the Politeama. All the Italian Societies in town are invited to attend.

The camp fires we alluded to yesterday were on the Southern frontier, but we believe no great damage was done, although some hamlets had a narrow escape.

Mr Crevaux, the great French explorer, who has come out to search for the source of the Paraguay, was presented to President Roca on Monday by Mr Moreno, the Argentine explorer, and most affably received by the Chief Magistrate.

They had a terrific dust storm at Rosario on Sunday afternoon, and heavy rain subsequently. No damage, but a deal of good done, as the downpour was badly required, a drought having prevailed up there for some weeks.

The ambient is positively thick with Christmas examinations, prizes and school matters in general. We hear that a startling 'novedad' in pedagogue circles is shortly expected in the shape of a public challenge from one of the best known private schoolmasters in town to all his confreres in the profession, to pit their boys against his at a public Competitive Examination, he supplying a gold medal as a prize in each branch. This is a capital and plucky idea and shows the confidence of the master in himself, his staff of professors and his pupils.

The remains of the late Don Felix Frias are expected to arrive here on Saturday next. Dn Jose M Estrada and Dr Goyena will deliver funeral orations over the coffin on the mole head, and the remains will then be carried to the Cathedral, for the religious ceremonies. The *Memorial Diplomatique* of Paris published a most flattering biography of Mr Frias a few days after his death.

Panama papers to November 10th are to hand, but, as usual, are rather dry, the only item of any importance being the total destruction of the town of Manzanilla and many vessels in its port, the damage being estimated at three quarters of a million of pats. Our excellent contemporary the *Star* says: "They have in Buenos Aires a Society for the Protection of Animals, modelled on the American plan, and reports say much good has been done by its efforts". We greatly fear that the horses and bullocks in this city would neigh and bellow an indignant contradiction of this news if, we were to mention it to them, which we do not intend to do.

A new tramway from Almagro to Flores at a dollar fare is proposed, and the Engineers Department has advised that a concession be given. The dollar fares are coming at last, Hooray!

THE WATER SUPPLY.

Bs. Aires, Dec. 20, 1881

To the Editor of the *Standard*.

Dear Sir

In the *Prensa* of to-day, I see a defence set up in favour of the Intermittent Service of the Water Supply, spite of all the evidence that has been given in opposition to it, before the various Parliamentary Committees named in England to investigate and report on same,

To these published Blue Books I refer the Water Committee in order that they may study them and convince themselves of the error, for I have neither the time nor the inclination to enter into this controversy again, which has already been so well ventilated by competent persons, who have all declared in favour of the constant service.

In conclusion, I will only quote the words of Prof. Corfield, when discussing the subject some little time ago in London, viz.

"It has been found, too, that at Croydon outbreaks of disease had been traced to the fact of bad air from closets and drains having been drawn into the empty mains by suction."

What has occurred at Croydon, I presume, might also occur at Buenos Aires, under similar circumstances, spite of any theory to the contrary.

I am, my dear Sir,
Yours truly,
Charles Dawney.

MARTELL BRANDY Imported by Moore and Tudor

MARTELL BRANDY—The best of all the fine brands

MARTELL BRANDY—Always of unvarying good quality.

MARTELL BRANDY—Guaranteed by our signature on the label pure spirits of the Cognac grape.

MARTELL BRANDY—Free from the noxious compounds found in the so-called 'Brandies from other sources.

MARTELL BRANDY—Beware of falsifications and ordinary Brandies served out of old Martell bottles in second-rate "Confiterias."

2 958

VALUE OF PAPER-MONEY.

From Nov. 30th, and until further notice the National Offices will receive the Notes of the Provincial Bank for their written value.

EMILIO CIVIT.

ON 'CHANGE.

Dec. 20th

Patacons	25.—
Cedulas A	99½
Cedulas E	83½
National Bank Shares	119½

The transactions in gold for end of the month were larger than usual. Between this and February much gold will be drawn off the market for the rivers and the saladeros. There is plenty of gold flowing into the country and the exchange rates favor same.

In Cedulas Series E is going up hill and sales were made at 83½; only a fortnight ago this Series was at 80, and the rise since then has been a steady one; there is more doing in this Series than in Series A. Cedulas A are firm between 99⅞ and 100; there are not many sellers of the stock.

The National Bank Share opened as firm as a rock, and to the surprise of all prices were going up suddenly to 121½, when a very heavy holder stepped forward and beared the market. Apart from there being several 'gatos' this flattening of prices at the moment was salutary, as it helped to tide some over who had gone in rashly. The turn in the market obliged many to follow in the wake and liquidate. The small holders are at the mercy of the heavy ones, and must necessarily lean on the latter. The sales were large and prices ran down from 121½ to 120 and 119½ to end of the month. Over 1,000 shares were sold for cash at 121, and the market closed at 119½. Several heavy outsiders sold out to-day.

The exchange market is weaker and rates are nominal.

Discounters are looking out for Proveeduria Government Bills at 7 o/o discount, but they are not to be had in the market.

Discounts in general are easy and the rates have not changed.

The sales at the ring were—

For Dec. 31st 326,000 25.05
Cedulas—
For cash E 13,200 at 83½
For cash A 10,000 at 99⅞-100-99⅞
Sales, 23,200.

Nat. Bank Shares—
For cash 1,090 shares 121-120½-120-119½-½ to 119½
For Dec. 31st 4,800 shares 121-½-½-120½-120 to 119½-½-½
Sales, 5,890.

Several of our prominent import merchants have met with a view to protest against the arbitrary proceedings in the discharge of steamers; the Minister of Finance will no doubt see the justice of the protest and act accordingly.

This morning the late Mr Wm. Günther's funeral was largely attended; a special train left Flores, and the number of merchants and brokers that attended showed how universally esteemed the deceased was. Our much esteemed Dutch Consul, Mr Wm. Pauls, spoke over the grave and tributed to the deceased a well deserved encomium as a man, a friend and a father.

Mr J F Morphy left to-day for Concordia; we wish him a pleasant trip.

The advices from Rosario state that in general the grain of the North-western colonies is not as good as in the Western colonies. It appears that the plantations this year represent an increase of 30 o/o over last year.

In this morning's issue we stated that 12,000 squares of flax had turned out bad; it was a printer's mistake, and the figure should have been 1,200. The whole flax crop, we believe, does not cover much over 12,000 squares. As we stated, the failure of part of the crops is due to the East Indian seed, that does not suit this climate.

There is nothing doing in National stocks; Hard Dollars are offering at 88. The only stock operations during the last few days have been in Bonos del Tesoro, or Treasury Bills. The latter stock is at 115½, in demand.

We hear that there is a proposal to start a tramway from Almagro to Flores; the proposed line cannot at all events run on the Calle Real, and will have to pass through back-streets.

At afternoon the excitement in National Bank Shares continued, prices fluctuating much. A French broker bought large amounts, some at 120. The market closed weak at 120, sellers.

It is stated that a change will take place in the National Cabinet of a financial nature.

It is rumoured, we do not know on what foundations, that the Minister of Finance, Dr Romero, will be President of the Provincial Bank for 1882, and it is generally surmised that Dr Romero will condescend to accept the onerous duty after the very laborious financial period of his Ministry.

5,000 salted hides from the Podesta saladero of 66 lbs. have been sold at 49½ rls.

The Strassburg has now engaged 3,600 bales at 35s, and 2,500 salted hides at 49s and 10 o/o. She sails for Antwerp on the 28th.

Exchange is at 60d to 60¼d on London; few drawers at latter rate

In Fondos Publicos some 10,000 were sold at 88; the market is buyers 88, sellers 89.

The Statutes of an English Ostrich-farm Co. are being drawn up and the prospectus of same will be out to-morrow. We referred to this business some days ago.

A sale of land at Media Luna is reported at 300,000 m|c.; the camp is near Italo.

Messrs Lumport & Hoet have notified their agents in Antwerp to make a reduction of 25 o/o in freights and passages of exhibitors and their exhibits for the Buenos Aires Continental Exhibition. Well done; other steam companies shou d follow in the wake.

There was some small business done to-day in Roads and Bridges at improved rates.

The business to-day in the wool plazas has been very large. Half the Once station deposits are now empty and the arrivals have fallen off, owing to the advice given to sheep-farmers to keep back their wools. Good kinds are always in demand, and there is much activity.

The great business of the day was the dispatch of the fine R.M.S. Derwent, with full cargo and a large amount of specie; the cereals she takes are important; she will not leave until to-morrow, owing to the late bad weather. The following is her cargo—

For Rio—
2400 bags of flour
1200 do maize
For Antwerp—
2600 bales
For London—
$320 in Bonds and £2050 in silver
At Montevideo she will load for Rio—
6000 bags of maize
For London—
150 cases meat.

The R.M.S. Mondego coming out direct, is due at Montevideo on 23rd inst, and will load for Europe leaving direct on 5th prox.

The Sales at afternoon were—
Gold—
Without operation.
National Bank Shares—
For cash 2,000 shares 119½-129, buyer.
For Dec. 31st 500 shares 119½

We extract the following from the London papers received by last mail:—

"A somewhat firmer tendency has been noticed in the money market during the last few days, but, as far as may be judged, the upward movement is in no way attributable to the condition of the foreign exchanges, nor to the prospects in reference to the bullion supplies. The immediate cause of the improvement seems to be the gradual drawing in of balances by the Indian Council for the repayment of India 4 o/o Bonds to the extent of £4,487,200 falling due on the 30th inst. The American exchange is lower than it was a week ago, being now quoted 4.86¾ dols., but any serious fall, involving bullion shipments from this side, is not expected. Meanwhile, the Continental exchanges are fairly steady, and gold to the value of at least $550,000 is on the way hither from Australia, of which about £250,000 is due in another week. The rumours which were prevalent during the early part of the week respecting an early withdrawal of gold for Italy have been denied on authority.

"The Central Argentine Land Company, Limited—Some time since, an article appeared in the *Revista de Buenos Ayres*, dealing with the climates of the Andine Heights and mountains of Cordova: it was written by Dr. Scrivener, and gave an excellent account of the healthfulness and beauty of the country; but the following statement will be of very interest to Shareholders in the Central Argentine Land Company:—"There are Mines of Gold, Silver, Copper, and Iron; the latter is very abundant and of good quality; there are also Marble quarries, and the marble is very fine and of different colours; Limestone of an extremely white nature is abundant; in short, there are few spots in the world where nature has lavished such a variety of animal, vegetable, and mineral productions as the Province of Cordova..." Such statements are very encouraging to the Shareholders in this Company and tend to show what "chances" attach to the possession of very large tracts of land in the country of the Argentines; it also confirms us in the view taken in an article of last week that the Proprietors should be content for the present with small dividends and hold on to their landed property. The Company's Shares have been in steady request all through the week."

At the South Market some business done at the following prices:—

36 waggons with produce arrived.
32,100 ar. of wool arrived.
Produce in general without variation.
The sales were—

The following real estate sales were reported yesterday at the escribanias:—

2d Paraguay No. 40, 12 mts. 990 cts. by 76 mts. 208 cts., for 160,000 m|c.

Moreno Nos. 748-760, 15 mts. by 60 mts 62 cts., for 50,000 m|c.

Paraguay between Callao and Rio Bamba, 8 mts. 66 cts. by 35 mts. 15 cts., for 69,000 m|c.

Callao in Centro America and Nueva Granada, 8 mts. 66 cts. by 35 mts. 50 cts., for 9,250 m|c. Subsequently sold for $6,400.

In the camp:—

Baradero, estancia La Providencia, 1,249 hectareas, 92 areas and 8 mts, for 750,000 m|c.

San Jose de Flores, 22 mts. 516 mts. by 41 mts. 135 mts. for 15,000 m|c.

San Fernando, 161 mts. 94 cts. by 493 mts. 62 cts. for 57,000 m|c.

Almirante Brown, 411 mts. 35 cts. de frente al E. fondo al O. por el costado S. 346 m's. 40 cts. por el costado N. 64 mts. 54 cts., for 140.000 m|c

Pilar, 7 mts. 79 cts. by 30 mts. 31 cts. for 18,500 m|c.

Tapalque, 100 mansanas campo, each one 86 mts. 600 mts. por costado, for 3,500 m|c

The arrivals of new wool in the Plaza Once during the month of October by railway and troops amounted to 46,742 ar, and during the month of November to 341,592 ar.

To-morrow the Provincial Government will sell off by auction a league and a fraction of land in the partido de Juarez. To judge by the results of yesterday's land auction near Bahia Blanca these camps will also fetch high prices. The spirited bidding at the Bahia Blanca land sale was unusual, and 50 o/o of the people present were foreigners. The upset price was insignificant, only $20 per hectare; the hectare netted $121. The upset value of Juarez land to-morrow will be 80,000 m|c, and we may expect that the camp will be sold for treble the price. Lands are steadily rising in value in the far South, and if people can afford to pay such enormous prices for such far-out camps, it remains to be seen what is the present value of camps in Lincoln, 25 de Mayo, and the Veinte de Tuerto.

The article on flax that appeared in yesterday's *Nacion* attracted much attention. If the seed and the fibre do really yield such enormous profits as Mr Forrester stated in his letter, we think that the farmers will soon be obliged to move out, and make room for an agricultural population of flax growers in all the partidos near the Capital. After all, it is incomprehensible how very little attention is paid to the cultivation of cereals, when we consider the enormous yield of a league of land under wheat or flax, and the comparatively small returns of same under cattle or sheep. The Italian chacarero from Genoa is the coming man, and we may all see the day when all the camps between this and Mercedes will be a bee-hive of chacareros and fields of cereals.

With reference to the prospects of the coming harvest in the colonies, advices sent to the Central Land Office from Resistencia state that the crop in that thriving settlement will be an exceptional one this year; they expect to take in four times as much grain as last year. Resistencia, as our readers know, is one of the Chaco colonies and not at all blessed with all the advantages of the Sta. Fe settlements nearer to Rosario and with a ready market for the sale of the cereals grown. We may anticipate a heavy wheat crop this season, and especially in several parts of this province; unfortunately the Provincial Statistical Office does not supply to the public a periodical statement of lands under wheat, maize, &c. There are some efforts being made in this line, since the census began, and it is to be hoped that, if successful, reports will be annually published on the matter. In the province of Sta. Fe they manage these statistical affairs better than here; there they know accurately the status of every colony, the number of squares under wheat, potatoes, maize, &c., and the example ought to be followed in the first province of the Republic.

It is reported that the Chargeurs Reunis Steamship Company has built a new steamer for their trade, to be called the Ville de Buenos Aires; a new Italian steamer, the Camilla of 3,000 tons, will also be put on the Mediterranean route to the R. Plate.

The German war frigate Elizabeth, Captain Hollmann, has arrived in Montevideo; she carries 12 guns and 400 marineros.

Advices from Montevideo state that there is quite a revival in the stock business on the Bolsa there; yesterday 60,000 cats in stocks changed hands, and the fact reminds one of old times, although the amount is small in comparison with the B. Aires Bolsa.

We have received the following from London for publication; all our telegraph subscribers will be interested in the matter:—

"Central and South American Telegraph Company.—The report of this company states that contracts have been concluded for 3,082 nautical miles of submarine cable of various types, with the India Rubber, Gutta Percha and Telegraph Works Company (Limited), of London. The latter company is to lay and guarantee the perfect working of these cables as a whole, and is required to guarantee that the various types of cable shall be of sufficient length, respectively, to properly connect the points required. Twenty-two miles of cable are being completed daily, and it is reported by the company's electrician to be of very superior quality. The provisions of the contract amply secure the company in every particular against loss, damage, or delay. No less than five steamers will be necessary to transport the cable and its accompanying material. The first shipment will clear from London Nov. 15th, or pay a penalty of 1,000 dollars per day for each day's delay; the other shipments will follow at fixed dates under heavy penalties for delay. The cable connecting Panama with Callao is to be completed by May, 1882, and it is expected that the whole line will be in commercial operation during the ensuing month of July. Careful estimates of cost have been made, and it is expected the company will have an ample cash surplus and 1,000,000 dols., par value, of its stock in its treasury on closing the construction account. This result will be attained notwithstanding the fact that the company will have about 900 tons of cable more than the original estimates called for, and that it has secured the following valuable exclusive telegraphic rights not included in the original prospectus:—United States of Colombia, the exclusive right covering its Pacific coast, inclusive of the Isthmus of Panama, for twenty-five years; Ecuador, the exclusive right for fifty years, and Peru, the exclusive right for twenty-five years. All of these rights have been ratified and confirmed by the respective governments, and contain other privileges highly beneficial to the company. J. B. Stearns, who has been appointed electrician and general manager of the company, has secured an experienced staff of electricians to watch over the cable in every stage of its manufacture and laying. The establishment of these cables will connect, telegraphically, the United States with Brazil, via Mexico, Guatemala, Costa Rica, Panama, Colombia, Ecuador, Peru, Bolivia, Chili, and the Argentine Republic; and their geographical position is such as will insure a large and remunerative traffic from the time of opening."

POR LOS MISMOS
E plendidas Tierras
15 LEGUAS DE MAGNIFICOS CAMPOS AL SUD DE CORDOBA.
Inmediatos á la provincia de Buenos Aires.
Al sud de la Carlota.
Campos con Trebolares.
Gramilla y otros pastos tiernos
VENTA DE OPORTUNIDAD
El Remate se efectuara
En nuestra casa
51—San Martin—51
Donde se darán planos y todas las informaciones sobre esta gran venta.
BASE DE VENTA:
$ 80,000 por legua
El Viernes 23 de Diciembre
a las 3 de la tarde

Procederemos a vender los campos arriba mencionados situados al sud de Cordoba, conocidos por las 'Averias' e inmediatos a los campos de 'La Carlota' y situados al sud de ella.

El campo que ofrecemos en venta ha sido mejurado y amojonado con mojones de hierro y madera y es segun opinion, de primera calidad en proximidad a la provincia de Buenos Aires se nota facilmente, con la revisacion de los planos que se enseñaran a los interesados, a quien se les dara igualmente un plano general de las fracciones a vender.

Recordaremos a los que en ellos pueden interesarse que el Ferro-Carril Andino [Concesion Clark] es ya un hecho, segun consta de los telegramas europeos publicados en todos los diarios, para dos leguas mas o menos de estas magnificas tierras, toda ella vegetal.

Muchisimas leguas se encuentran en esta inmensa zona de fertilisimo campo, e inmensurables cañadones le cruzan en todas direcciones, el agua se halla a 2½ varas.

La red de Ferro Carriles, que ligara las provincias Argentinas se ve ya como un hecho y segun informes, uno de estos Ferro-Carriles debera partir de la estacion Villa Maria del Ferro-Carril Argentino y se unira a la concesion Clark y este a Ferro Carril del Oeste.

Si los compradores unifican estos datos de progreso a la bondad de estos campos ellos verán cuan infima es la base fijada, mayormente si se tiene en cuenta la venta efectuada por el Gobierno de la Nacion de los campos situados en el limite Norte de la Provincia de Cordoba hace pocos unos dias, y cuyos precios variaron desde 1,000 a 3,000 $ m/c legua.

La situacion pues de las tierras que ofrecemos en venta, y para la cual llamamos la atencion de nuestros amigos es de no perder un momento y positivo resultamente a los anteriores.

Por mas informes ocurrir a nuestra casa, 51 San Martin.

POR LOS MISMOS
La flor de los Campos
DE
BAHIA BLANCA
Los Manantiales y Nueva Roma
12 leguas cuads.
Magnificos pastos y aguadas permanentes
A 2½ leguas del puerto
BASE DE VENTA
Ps. 150,000 Legua
En nuestra casa
78—— ALSINA ——78
El Jueves 19 de Enero
A las 3 p.m.

Remataremos a la mas alta postura y dinero de contado pesando la base arriba indicada por orden terminante de sus propietarios y por liquidacion de sociedad estos magnificos campos situados en el Partido de Bahia Blanca, y que podemos reputar sin exageracion alguna los mejores, en cuanto a pastos y aguadas permanentes de aquella localidad; campos poblados hace mas de 31 años.

Los Manantiales—(Plano A)

LOTE No. 1—Una suerte de estancia o sean 2½ legua con frente al Naposta Grande arroyo de agua cristalina, permanente y dulce; linda por el N. Este con D. Sisto Laspiur, por el Sud, Oeste y Nor Oeste con Jorge Clarez; tiene una poblacion construida de piedra y barro con techo de fierro de 4 reales por vara cocina con techo de paja y un corral de piedra para ovejas, grande y bien situado.

LOTE No. 2—Se compone de 4½ leguas mas o menos sobre el Naposta y linda por el N. O. con los Sres O Heusser Arce y Chaudini; por el N. E con el lote num. 3, y por el S. Oeste con Cuquet, Bajo Hondo y el Estanco. Tiene en el Centro del campo, la Laguna de Manantiales y el arroyito del mismo nombre: las poblaciones son: sobre el Naposta grande uno de dos piezas de material y un pequeño galpon de lo mismo; otro de dos piezas, uno de adobe crudo y la otra de piedra con un gran corral de piedra para ovejas.

La poblacion de los Manantiales se compone de tres grandes piezas de material de adobe crudo con techo de tabla y fierro; a mas dos puestos construidos con los mismos materiales que estos ultimos.

LOTE No. 3—Lindero con el anterior y se compone de 3 leguas aproximadamente con frente tambien al Naposta y hasta el Bajo Hondo; tiene tambien una laguna "Los Salados", una poblacion sobre el arroyo de una pieza de piedra como las anteriores y dos poblaciones de adobe crudo con techo de fierro.

El total de estos campos, conocidos por los Manantiales dista dos leguas y diez cuadras desde el Rio Quinto Oeste a la plaza del pueblo de Bahia Blanca y su superficie total segun la recientemente mensura practicada por el agrimensor D. Federico Gomez Molina, se compone de 8 leguas cuadradas 36 cuadras.

La calidad de la tierra es en todas partes vegetal, arenosa, hasta una profundidad que varia entre media y tres cuartas de vara, pero se nota de una manera bien clara la fecundidad de ella, en los parages donde ha sido removida ha brotado instantemente y en abundancia el trevol de carretilla y el alfilerillo, ambos pastos tiernos y dulces.

Aguadas—Tiene el Naposta Grande, las Lagunas, Los Manantiales y Saladas y el arroyito Los Manantiales.

Ademas se encuentra el agua a diversa profundidad en este campo a consecuencia de los accidentes del terreno y que varia desde 1 hasta 13 metros de profundidad.

Pastos—Los pastos son mezclados, encontrandose el alfilerillo, trevol de carretilla, cola de zorro, pasto duro, flechilla, vinagrillo, té pampa, cebadilla y manantial predominando en un todo el trevol, alfilerillo, pasto duro y cola de zorro.

Este campo es apropiado para hacienda lanar y vacuna, indistintamente, la cual se encuentra en la estacion de gordura que se necesita trabajo encontrar animales que sirvan para el consumo.

Nueva Roma—(Plano B)

Se compone esta fraccion de tres y tres cuartas leguas cuadradas sobre el arroyo Sauce Chico y sus linderos son por el N E Juan y Eduardo Vidal y Francisco Celco, por el S E. Francisco D Bozzur, por el N O los mismos Juan y S Vidal y por el S O. el Sauce Chico, dista este campo del Esquinero Este 4½ leguas de la plaza principal del pueblo Bahia Blanca.

PASTOS—Estos son en general cola de zorro, pasto duro y carretilla, existiendo unicamente en sus bajos y muy principalmente en los comprendidos por el arroyo Sauce Chico y el Saladillo, Lazaga y Garcia, con gran abundancia el trevol de olor, alfilerillo, mostaza y tabapampa. Este terreno es apropiado por su mayor estension para la cria del ganado vacuno.

Calidad de la tierra: es semejante a la de los Manantiales y se nota tambien claramente la fecundidad de ella.

AGUADAS—Tiene el Sauce Chico arroyito permanente de agua dulce y cristalina, tiene ademas dos Saladillos o arroyitos.

Los vertederos, debido a lo accidentado del terreno, se encuentran desde los 40 centimetros hasta los 11 metros de profundidad.

La venta de esta fraccion se hara de la manera siguiente—

Lote No. 1—Compuesto de una y media legua cuadrada.

Lote No. 2—Una suerte de estancia o sean tres cuartas leguas con opcion a los Lotes No. 6, y 7, cada lote de 1½ leguas.

Creemos de nuestro deber llamar la atencion de los estancieros sobre estos magnificos campos que como ve por los informes del agrimensor son de primera calidad.

Su situacion no puede ser mejor, distan apenas 2½ leguas del Puerto de Bahia Blanca, destinado a ser el mas importante en toda la costa Sud, de donde podran embarcarse directamente todos nuestros productos de la vasta campaña del Sud de la Provincia.

El fardo alli al rincunelo vale unicamente $3 por arb. de lana y enfardilada la mitad.

Ademas es publico y notorio, la prolongacion del ferro carril del Sud desde el Azul a este punto, asi que puede decirse con seguridad, que estos campos en pocos años valdran de $600 a 800,000 la legua.

Por planos e informes impresos, ocurran a nuestra casa Alsida 78, desde el 20 del corr, en adelante.

e dl6 156 j19

EN SEGUIDA
Varias chacras y solares
EN
BAHIA BLANCA
Sobre el Arroyo
MALDONADO
20 cuadras cuadradas cada uno

3 chacras sobre el Maldonado y una mas enfrente conteniendo por dimensiones 20 cuadras cuadradas cada una y lindando con los Sres Domingo Ponsati, N Ferro y otros; distante 20 cuadras de la plaza principal del pueblo.

Otra chacra distante 1 legua de la plaza y muy cerca del puesto.

Una casa en la calle Salanayan, distante media cuadra de la plaza, de 3 piezas y esta cercada de pared, un solar a la calle de esquina a la calle de Mitre a una cuadra de la plaza, tiene 35 varas de frente por 70 de fondo.

Otro solar a la calle Salanayan formando esquina a otra calle y dista 3 cuadras de la plaza principal del pueblo.

e dl6 167 j19

POR LOS MISMOS
TRASFERIDO
600 cuadras cuadradas
Campo Flor
Todo alambrado y con 2 puestos.

Con frente al Rio de la Plata
Terreno alto e inmejorable para invernar animales.
O para Grandes Siembras
En el Partido de la Magdalena
Distante 12 cuadras
De los Saladeros y Puerto de Ataláya
En los lotes de 100 cuadras cuadradas o mas al gusto de los interesados
Base de Venta
600 Ps. cuadra
En el mismo campo
1570 a 1800 ovejas, caballos, ceriales, etc.
El Sabado 24 de Diciembre
A las 4 de la tarde

Remataremos con la base arriba fijada y plazos que se estipularan en el acto de la venta, por orden de su propietario, este magnifico campo arriba mencionado, compuesto de diez cuadras de frente al Rio de la Plata por 60 cuadras de fondo, todo alambrado con postes y medios postes de fierro ubay a 3 y 10 varas de distancia, con 5 hilos alambre de patente; tiene 2 poblaciones de quincho con casillas de madera, una techo de fierro de canaleta y otra teja francesa, pozo, quinta y tres cuadras sembradas de maiz y algunos arboles frutales.

Dista dos leguas de la Magdalena y doce cuadras de los saladeros y magnifico puerto de la Ataláya.

Este campo puede facilmente producir un arrendamiento de 150 a 180,000 $ anualmente, pues es sabido que se paga desde 250 a 300 ps. cuadra al año para agricultura y para invernada de animales mas o menos, lo mismo y lo prueba que actualmente hay en el campo de 70 a 80 caballos de la Empresa de Diligencias que pagan 1800 ps. mensuales.

El propietario no ha querido hacer contratas, porque tenia la idea de vender y las contratas suelen ser un gran inconveniente para la venta.

Ademas de las 600 cuadras, hay sobre la margen del Rio de la Plata 100 cuadras cuadradas mas o menos, bajo alambrado, de cuyo usufructo puede hacer el comprador de aquella area y que se puede aprovechar para muchas cosas.

En cuanto a la calidad del campo es de lo mejor de la Provincia y sus pastos todos tiernos con gramilla, trevol de olor y comun, cola de zorro, alfilerillo, flor morada, cardo asnal y castilla, como lo podran ver los que quieran visitar el campo para cuyo objeto no tienen mas que tomar las diligencias que salen de la Ensenada para la Magdalena, que los dejara en el mismo campo en la ultima posta del alambrado, donde hallaran al propietario que les enseñara todo el campo.

La venta se hara en lotes de 100 cuadras cuadradas o en un solo lote, pues la figura regular del campo se presta para ello.

Inutil nos parece llamar mas la atencion de los interesados sobre esta brillante propiedad.

Los campos de la Magdalena tienen fama en toda la Provincia y son rivales de nuestros mejores campos del norte, ademas no hay que olvidar que la proximidad del pueblo de la Ataláya, para el embarque de los frutos y consiguientemente flete barato, es un punto muy importante que no hay que despreciar.

Con todas estas ventajas la base de 600 ps. cuadra es muy modica

Al mismo tiempo.

1500 a 1800 vacas mestizas, 10 caballos y 1 yegua de uso del Establecimiento, corrales de oveja y caballos etc

Titulos de primer orden.

Por mas informes, ocurrir a nuestra casa, 78 Alsina.

NOTA—Las personas que deseen asistir al remate pueden salir el Sabado 24 en el primer tren, y encontraran carruages en la Ensenada para llevarlos al Establecimiento donde se efectuara el remate.

El Miercoles 18 de Enero
A las 5 de la tarde

Remataremos en la mas alta postura y dinero de contado, perteneciente a la testamentaria del Sr D Pablo Gorostiaga.

Este magnifico terreno compuesto de 17½ vs de frente al Norte por 55 vs de fondo al Sur.

El edificio se compone de tres piezas de material consumidas en cal, tirantes y alfajias de maderas duras, techos de balduesas al costado izquierdo y en el derecho otra pieza de igual construccion, pozo, letrina etc.

Los cuatro piezas tienen piso de tabla, zocalos y cortinas marcos, una con cielo-raso de yeso y las otras de ladrillo.

Estas piezas por su construccion, pueden servir perfectamente bien como arranque de un buen edificio, pues es salida y moderna.

Debemos llamar la atencion de las personas que buscan terrenos grandes y bien situados para construir casas de familia, sobre este cuarto de tierra que llenara a no dudarlo las exigencias del mas delicado. Buena calle, dista no pocas varas del boulevard Callao. Barrio inmejorable lleno de hermosas casas, con tramway que pasa de un estremo a otra de la ciudad en 3 minutos, hasta media noche, terreno vasto, en fin no se puede pedir mas.

La base de venta son $800,000 m/c que puede decirse es la mitad de su verdadero valor.

Titulos superiores.

Por mas informes a nuestra casa, Alsina 78.

STATE OF IRELAND.

Lord Mauck, as lord-lieutenant of the county of Dublin, has issued a circular convening a meeting of justices of the peace of the county of Dublin in the county grand jury room, Four Courts, at one o'clock on Monday, November 21st, to take into consideration the present condition of public affairs as affecting the maintenance of peace and good order in the county.

On Tuesday last between four and five hundred Protestant farmers assembled at Belle Isle, county Donegal, the residence of Mr Arthur H Forster, J.P, where they dug out and pitted in first rate style the produce of several large fields of potatoes. They were accompanied by the enlivening strains of a fife and drum band, and returned in a similar manner when they had completed the work.

Mr Justice O'Hagan, Mr Vernon, and Mr Litton sat to-day in the Land Commission Court and heard motions. Mr McLoughlin, solicitor, who appeared on behalf of Mr Henry Tilson, Shane Court, county Mayo, the landlord of a number of tenants near Belmullet, asked the Court whether a head constable of police was a good witness to an agreement between the landlord and tenant fixing a fair rent for fifteen years. The rules required that the agreement should be witnessed by a magistrate, a poor law guardian, or a clergyman, but in the case of these tenants it was impossible to get any poor law guardian, magistrate, or clergyman to witness the agreement. The priest of the parish was away, the parson was in England, there was only one paid guardian in the district, and he was on a visit, and the district was so remote that no magistrate was accessible. Under these circumstances the head constable of the district witnessed the execution of the agreement. Judge O'Hagan said the Court could not relax the rule which was made for the protection of the tenants. At the same time he was glad to see agreements like the one in question entered into, and he observed from the document before him that the reductions of rent made by the landlord were substantial. He thought there would be no difficulty in getting the clergyman of the parish to witness the agreement. The people must go to mass on Sundays, and wherever they go they could get the priest to witness it. In the case of Edward Farrelly, tenant, Doughty's landlords, Mr Drummond, appeared for the landlords, renewed his application to dismiss the originating notice of the tenant claiming to have a fair rent fixed. He grounded his motion upon the contention that Farelly was not a present tenant, within the meaning of the Act, on the ground that he was not in the occupation of the holding. The case had been mentioned on a previous day, and counsel mentioned that an affidavit had been filed on the other side, but there was no appearance. It appeared that on the 30th of June, 1881, an ejectment for three years' rent was registered as a mortgagee against the land. On the 1st July a writ of summons for ejectment, grounded on the judgment mortgage, was issued. On the 22nd July judgment was marked, and a writ of habere issued. On the 20th August the writ for possession was executed, and on the 7th September the tenant re-entered forcibly.—Mr Justice O'Hagan, in delivering judgment, said the first question was whether a tenancy could be considered as subsisting in this farm, the landlord having by means of an ejectment obtained possession and gone into occupation. Upon that point the Court were unanimously of opinion that the tenancy still subsisted. The landlord was merely in possession as mortgagee, precisely as any other mortgagee might be. It was plain that the fact of his going into possession as mortgagee did not merge the tenancy. Before the passing of the Judicature Act there would have been a merger in the eye of the law, but under the Judicature Act there was now no merger at law, and there was none at equity. There was another point, however, to be considered which stood on a different basis, and that was whether Farrelly could be considered as tenant of the holding under the 57th section of the Land Act. Upon considering the meaning of the Act and the authorities quoted, the Court were of opinion that a tenant who has been displaced by a mortgagee, a person having a legal estate in the land, and who by virtue of that entered into possession, no longer held the lands, and therefore did not come within the definition of tenant. They were of opinion that the landlord was entitled to carry the motion, and have the originating notice dismissed.—Mr. Commissioner Litton and Mr Vernon concurred.—Dr Houston asked the Court later in the day to hear him on the part of the tenant.—Mr Justice O'Hagan said they could not reopen the case. Counsel might however, serve notice stating the terms upon which he would be prepared to have the case reargued, and they would consider the matter.

The Sub-Commission, consisting of Mr Edward Greer, Professor Baldwin, and Mr J. M. Ross, continued their sittings in Ballymena, and received evidence in the cases in which applications were made by tenants to have a judicial rent fixed. During the afternoon the Commissioners proceeded to visit some of the farms in question. In Ballymena there were seventeen cases originally on the list, but during the past fortnight that number has increased to 150. Mr Commissioner Greer anounced in court that 135 of these cases, which had been recently remitted by the Land Court in Dublin, had been ordered to be adjourned till the next sitting of the Sub-Commission in Ballymena, so that none of them will be heard during the present sitting. It was further stated by the Commissioners that they did not know when they would again sit in Ballymena. In Antrim, Lisburn, and other towns, which they are to visit during next week, cases are entered for hearing. —The Sub-Commissions at Clones were engaged to-day making an inspection of farms regarding which applications have been made to them. The reductions made by the Commissioners there on the estate of Mr Dacre Hamilton, at Drumnawinter, are as follows: — James Lynch, from 9l. 5s. to 8l.; Michael Lynch, from 13l. 5s. to 12l. 10s.; Patrick Smyth, from 21l. 15s. 4d. to 18l.; John Smith, from 8l. 8s 2d. to 7l. 10s.; and Francis Quigley, from 8l. 5s. 6d. to 6l. 10s. The total rental paid by the applicants was 60l. 19s., the total acreage was 105 acres, and the judicial rent now fixed is 52l. 10s., making a gross reduction of 8l. 9s. Very great interest continues to be manifested by the tenant farmers in the judgments of the Sub-Commissions.

It is again reported that the Rev. J. McPhilpin, curate of Athenry, has been arrested as a suspect.

Mr Whitworth Butler, Georgestown, county Meath, who was reported to have been killed while hunting with the Meath hounds on Tuesday, died this morning from the effects of his injuries.

FIRE ON BOARD A CHANNEL STEAMER.

SIX PERSONS BURNT TO DEATH.

A telegram from Dublin this morning gives some details of a terrible occurrence on board a Channel steamer, arrived at Kingstown, whereby six lives are known to have been lost, and it is feared the number will be doubled, as several persons are still missing. There appeared in the first place to be a disposition to connect the circumstance with Fenian machinations, and a dynamite explosion was spoken of; but the particulars given below show that, so far as appears to be known, the occurrence was purely accidental.

At ten o'clock last night the screw steamer Solway, belonging to Messrs. W. Sloane and Co., of Glasgow, commanded by Captain W. Fry, with a crew of 19 hands and 14 passengeas, bound from Glasgow to Bristol and Swansea, with a cargo of whiskey, oils, rum, sugar, oats and flour, put into Kingstown Harbour, Her foremast, bridge, and the forepart of the maindeck were burned, and six charred corpses lay on the burning steerage deck, while five other passengers are supposed to have been lost either by being burned alive or drowned. It appears that the steamer left Belfast at half-past four o'clock on Tuesday afternoon, having put in there on her way from Glasgow. All went well until six o'clock yesterday morning, when the ship was about twenty miles from Rockabill, off Skerries. A barrel of naptha oil then burst on the fore main-deck. The oil ran along the deck to that part of the vessel devoted to steerage passengers, where it came in contact with a stove, and in another moment the fore-part of the vessel was in flames, the foremast and forward part of the main-deck burning fiercely. The utmost consternation prevailed amongst the passengers, and, to heighten the terror of the situation, there was a heavy sea running and a strong gale blowing at the time. Six of the passengers, who were in the steerage when the fire broke out, were literally enveloped in flames, and were burned to death almost immediately. The rest of the passengers and crew—some of them fearfully burned—rushed about in the utmost terror, under the impression that some terrible explosion or further extension of the fire was imminent. Some of the terror-stricken passengers lowered one of the boats, and five of them got away in her during the temporary panic which seems to have prevailed. It is not yet known what has become of them. The crew were, however, soon recalled to a sense of their duty, and, under direction of the captain, they commenced throwing water on the flames, and got a hose at work from the donkey-engine, by which means they succeeded in keeping the flames somewhat in check, and preventing them from extending. A steamer hove in sight, but apparently did not see them or the signals they made. During the day the crew continued at work extinguishing the fire, and about six in the evening the Solway was boarded by a pilot and steered for Kingstown, accompanied by a steamer which had fallen in with her, and which kept company till the Solway was in a place of safety. A party of coastguardsmen and police afterwards went on board and assisted in the work of extinguishing the fire which was still burning. They also collected the bodies, which were in a terrible state, charred, and with the flesh in some cases burned off.

The following are the names of the crew and passengers who were landed and taken to the hospital badly burned:-Charles Byrne, Swansea, passenger (not expected to live); Charles Crabbe, seaman, Bristol, Samuel Anderson, Glasgow, seaman; George Chard, seaman Bristol. Those burned to death were two soldiers of the 24th Regiment with a deserter in custody; two soldiers of the 56th Regiment, and a civilian passenger whose name is unknown.

A later telegram says it is feared that the list of those burned to death is not yet complete. Among the passengers was a woman, and up to six o'clock this morning no traces of her had been found, and owing to the darkness of the night and the fear of using lights in looking among the cargo a thorough search for the bodies of those killed could not be made till to-day. The names of those who left the steamer in the small boat are William H. Fry, second mate, son of the captain; Henry Hall, Roderick Maclean, Charles Cole, sailors; and a passenger named Parkinson, who is a shopkeeper carrying on business at Glasgow.

Conserving Salt.
Mark, 'Corona'.
Patented by the Governments of Germany, Austria-Hungary, Belgium, United States of America and other countries.
Prized in 18 Exhibitions in Europe, America and Australia.
The patented Conserving Salt is preferable to all other existing antiseptics because.—
1. it is a real chemical combination and no mechanic mingling of different Salts;
2. it thoroughly combines with the object to be preserved;
3. it is very easily applied and produces a quick and lasting effect;
4. its application leaves no disagreeable smell behind and even the choicest aroma is not influenced by its taste;
5. its application is not expensive;
6. and above all it is in no way detrimental to health, because it is entirely free of Saliciné Acid and the like substances;
7. it is easily soluble in water and must for that reason be kept in a dry place.
Preserves every sort of meat, intestines and poultry, fat, tallow, fishes, milk, butter, cheese, fruit and all objects easily disposed to fermentation.

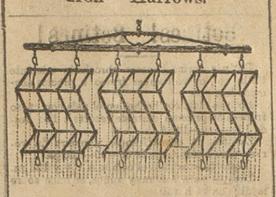
HOWARD'S CELEBRATED HARROWS

Howard's Iron Harrows.

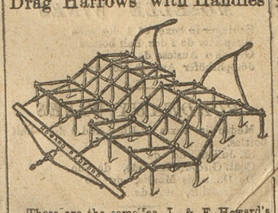


These Harrows have stood the test of many years experience and still remain unrivalled, the demand being greater than ever. Hundreds of thousands are in use. They are strong, durable, and thoroughly adapted to all kinds of work. The tines—which are all steeled—are so fastened that they cannot get loose, and unlike Colonial made imitations they can be readily taken out for repair.

The following are some of the most useful sizes:—

No. 11, for two or three animals, 10 feet wide, weight 2½ cwt.....
No. 12, for two animals, 9½ feet wide, weight 1¾ cwt.....
No. 14, for one or two animals, 8½ feet wide, weight 1½ cwt.....
No. 20, for one animal, 7½ feet wide weight 1 cwt.....

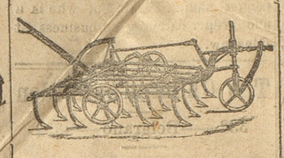
Howard's Drag Harrows with Handles



These are the same as J. & F. Howard's ordinary Drag Harrows, but furnished with handles, by which convenient arrangement the tines can be pressed into the ground, or lifted out to clear them, as occasion may require.

H 16, a pair of 4-beam Harrows, with whippletree, 9½ feet wide 2¾ cwt.....
H 16, a pair of 5-beam Harrows, with whippletree, 11½ ft. wide, 3 cwt.....
H 17, a pair of 4-beam Harrows, with whippletree, 6½ feet wide weight 3 cwt.....
H 17, a pair of 5-beam Harrows, with whippletree, 7 feet wide weight 2½ cwt.....
H 18, a pair of 4-beam Harrows, with whippletree, 8 feet wide, weight 2¾ cwt.....

Howard's Self-Lifting Wheel Harrows



These Implements will be found very serviceable both as Drag Harrows and as light Scarifiers. They possess an advantage over the ordinary Drag Harrows, in being mounted upon wheels, which whilst diminishing the draught, allow of ready adjustment for harrowing the land deeper or shallower as may be required.

L 1, for two light animals, with 12 tines, 4 ft. wide, weight 3 cwt
L 2, for two or three animals, with 17 tines, 4½ feet wide, weight 3½ cwt.....
L 3, for three or four animals, with 23 tines, 6½ feet wide, weight 4½ cwt.....
L 4, for four animals, with 25 tines 7½ ft. wide, weight 4¾ cwt.....

The above Machines kept in Stock by the Principal Hardware Merchants.

Dysentery, Cholera, Fever, Ague, Coughs, Colds, &c.

—o—

Dr. J. Collis Browne's Chlorodyne

(Ex Army Medical Staff)

IS THE ORIGINAL AND ONLY GENUINE.

—o—

CAUTION.—Vice-Chancellor Sir W. P. Wood stated that Dr. J Collis Browne was undoubtedly the inventor of Chlorodyne; that the story of the defendant, Freeman, being the inventor was deliberately untrue, which he regretted had been sworn to. Eminent hospital physicians of London stated that Dr. J. Collis Browne was the discoverer of Chlorodyne; that they prescribe it largely, and mean no other than Dr. Browne's.—*See Times*, July 12th 1864.

The Public, therefore, are cautioned against using any other than

Dr. J. Collis Browne's Chlorodyne.

REMEDIAL USES AND ACTION.

This invaluable remedy produces quiet, refreshing sleep, relieves pain, calms the system, restores the deranged functions, and stimulates healthy action of the secretions of the body, without creating any of those unpleasant results attending the use of opium. Old and young may take it at all hours and times when requisite. Thousands of persons testify to its marvelous good effects and wonderful cures, while medical men extol its virtues most extensively.

CHLORODYNE is admitted by the profession to be the most wonderful and valuable remedy ever discovered.

CHLORODYNE is the best remedy known for coughs, consumption, bronchitis, asthma.

CHLORODYNE effectually checks and arrests those too often fatal diseases—Diphtheria, Fever, Croup, Ague.

CHLORODYNE acts like a charm in Diarrhœa, and is the only specific in Cholera and Dysentery.

CHLORODYNE effectually cuts short all attacks of Epilepsy, Hysteria, Palpitation and Spasms.

CHLORODYNE is the only palliative in Neuralgia, Rheumatism, Gout, Cancer, Toothache, Meningitis, &c.

—o—

From Symes & Co., Pharmaceutical Chemists, Medical Hall, Simla, Jan. 5th 1880. To J. T. Davenport, Esq., 33, Great Russell Street, Bloomsbury, London. "Dear Sir, we embrace this opportunity of congratulating you upon the wide-spread reputation that justly-esteemed medicine, DR COLLIS BROWNE'S CHLORODYNE, has earned for itself, not only in Hindostan, but all over the East. As a remedy of general utility, we much question whether a better is imported into the country, and we shall be glad to hear of its finding a place in every Anglo-Indian home. The other brands, we are happy to say, are now relegated to the native bazaars, and, judging from their sale, we fancy their sojourn there will be but evanescent. We could multiply instances *ad infinitum* of the extraordinary efficacy of DR. COLLIS BROWNE'S CHLORODYNE in Diarrhœa and Dysentery, Spasms, Cramps, Neuralgia, the Vomiting of Pregnancy, and as a general sedative, that have occurred under our personal observation during many years. In Choleraic Diarrhœa, and even in the more terrible forms of Cholera itself, we have witnessed its surprisingly controlling power. We have never used any other form of this medicine than Collis Browne's, from a firm conviction that it is decidedly the best, and also from a sense of duty we owe to the profession and the public, as we are of opinion that the substitution of any other than Collis Browne's is a "deliberate breach of faith on the part of the chemist to prescriber and patient alike." We are sir, faithfully yours, Symes & Co., Members of the Pharm. Society of Great Britain. His Excellency the Viceroy's Chemists."

Extract from the General Board of Health, London, as to its efficacy in Cholera—"So strongly are we convinced of the immense value of this remedy that we cannot too forcibly urge the necessity of adopting it in all cases."

CAUTION—None genuine without the words 'Dr J Collis Browne' on the Government Stamp. Overwhelming medical testimony accompanies each bottle.

CAUTION.—Purchasers are cautioned to avoid counterfeits by observing that each article is labelled with the firm's Trade Mark, a "White Rose" on a "Double Lyre."

ESTABLISHED 1799.

AS SURE AS EGGS ARE EGGS.—An American Editor declares that out West eggs are fetching two-pence each, and that the hens do not care about business even at this price. We fancy this must be very far 'West,' or surely our American cousins would ere this have resorted to the use of 'Borwick's Gold Medal Custard Powder,' which renders the housewife perfectly independent of the domestic fowl, since it produces the most delicious custards, blancmanges, &c., at half the usual cost, and in much less time. The hens had best be cautious about 'striking,' or some enterprising storekeeper will introduce this household boon, and ruin their trade for ever. There is no special 'laying season' for 'Borwick's Custard Powder,'—one can keep it always on hand in the neat little packets and tins in which it is sold.—Can be had of all Storekeepers in the Colonies.—*Civilian.*

Carlow Lay College

AND

ST. MARY'S PREPARATORY SCHOOL

Knockbeg, Queen's County.

In Carlow Lay College students are prepared for the Army, for the various professions, and for Degrees in Arts in the University of London.

Amongst Catholic Colleges, Carlow ranks next to Ushaw and Stonyhurst in the number of her students who are graduates and undergraduates of the London University. An Examiner from the University of London holds Examinations in Carlow College, to confer Degrees in Arts.

There is a special class under a competent master to prepare students for commercial life, and no exertion is spared to secure the progress of the pupils in the junior classes.

The College is healthfully situated in a park of six acres, which forms extensive recreation grounds for the students.

TERMS:

Pension, including all extras, 35 guineas per annum.

Pension, exclusive of extras, 30 guineas.

St. Mary's Preparatory School

In connection with Carlow Lay College, the Preparatory School of St. Mary's, for children from eight to twelve years of age, has been re-opened.

Rector—Rev. William P Bourke.

Matron and Professor of French and Music—Miss Finneran.

English Master—Mr P Harnett.

The School is strictly and purposely limited to children of such age, in order that they may be totally separated from the grown boys, and may have all the advantages of minute attention which their tender years require.

The children at St. Mary's are under the special care of the matron, and the rector takes charge of their religious instruction.

TERMS:

Pension, including all extras, 35 guineas per annum.

Pension, exclusive of extras, £30.

Keating's Powder.

KEATING'S POWDER.
KEATING'S POWDER.
KEATING'S POWDER.
KEATING'S POWDER.

KILLS BUGS,
FLEAS,
MOTHS,
BEETLES,

THIS POWDER is quite HARMLESS to ANIMAL LIFE, but is invaluable in destroying FLEAS, BUGS, COCKROACHES, BEETLES, MOTHS IN FURS, and every other species of insect. Sportsmen will find this invaluable for destroying fleas in their dogs, as also ladies for their pet dogs.

THIS ARTICLE has found so GREAT a SALE that it has tempted others to vend a so-called article in imitation. The PUBLIC are CAUTIONED that the tins of the genuine powder bear the autograph of THOMAS KEATING. Sold in Tins only.

KEATING'S WORM TABLETS.
KEATING'S WORM TABLETS.
KEATING'S WORM TABLETS.
KEATING'S WORM TABLETS.
KEATING'S WORM TABLETS.

A PURELY VEGETABLE SWEETMEAT, both in appearance and taste, furnishing a most agreeable method of administering the only certain remedy for INTESTINAL or THREAD WORMS. It is a perfectly safe and mild preparation, and is especially adapted for Children. Sold in Tins and Bottles, by all Druggists.
